

FLORIDA INVENTION CONVENTION

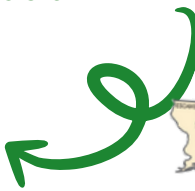

# Invention Convention Florida

The Invention Convention Florida @ University of South Florida (ICF@USF) is a statewide program that gives students from Florida the opportunity to showcase their inventive projects, compete for awards, and potentially advance to the national competition. The ICF@USF provides future inventors with the real-world experience of taking an idea from concept to commercialization while equipping them with the skills required for growth and success in a rapidly evolving world. Launched by the Florida Inventor's Hall of Fame (FIHF) at USF in 2023, ICF strives to support young innovators and provide a pathway for future success.
